

16. BKEX

Launched in June 2018, BKEX is a crypto exchange based in the British Virgin Islands. It's available in both English and Chinese. The platform offers leveraged trading; however, it supports cryptocurrencies only with a wide selection of trading pairs. For legal purposes, this exchange doesn't allow US residents. All in all, it's active in 101 markets with a trading volume of over \$1.5 billion over the past 24 hours.
