

### 3. Coinsbit

Coinsbit is one of the world's largest crypto exchanges. Launched in August 2018 they achieved, through their multi-level referral program, second place in terms of number of visits and third place in terms of registrations (1.3 million). The exchange's throughput is 10k transactions per second, users are supported in 12 languages 24/7. Their service has been integrated with 200k POS-terminals in Korea, Vietnam, China, and India. 95% of user funds are stored in cold wallets.

On December 4th, 2019, the exchange reported that it had successfully passed an independent examination made by European specialized agency, as a result of which Coinsbit was assigned a high level of security.
